

SOCIAL S. UNIT 4

STUDY SHEET

WEATHER

It is the state of the atmosphere, the layer of gasses surrounding the Earth

TYPES OF WEATHER

It depends on:

1.-Air temperature:

- Hot air
- Cold air
- Wind: hot and cold air falling cause wind

Strong wind causes storms

2.-Humidity: amount of water vapour in the air.

It is higher near the coast.

3.-Precipitation: clouds cause water falling to the ground

- Rain: droplets of liquid water
- Snow: ice crystals
- Hail: ice crystals

WEATHER TOOLS

- **Thermometer:** measures the air temperature.
- **Rain gauge:** measures the amount of precipitation.
- **Anemometer:** measures the speed of the wind.
- **Wind vane:** shows the direction of the wind

SEASONS AND MONTHS

Spring

March
April
May

Summer

June
July
August

Autumn

September
October
November

Winter

December
January
February
